CASE'S

UNDERWOOD TARIFF IS HOSTILE TO THE FARMERS' INTERESTS

Union Leader Asks Congress to Get Back to the Soil—With Protection

Would Raise Plow to the Level of the Factory.

Henry N. Pope, president of the Association of State Farmers' Union Presidents, has issued a statement in pamphlet form to members of the union pointing out discriminations in the Underwood tariff against the agricultural interests favoring protection on all farm products and demanding a revision of the tariff so that the farmers will not be compelled to sell in a free market and buy in a protected one. In discussing the subject the head of the union said: "The effect of the Underwood tariff acts to protect capital and labor engaged in manufacturing and to expose to world competition capital and labor engaged in production. It is perhaps the most antagonistic expression congress ever made toward the agricultural interests of this nation, and had not the European war arrested its operation, would have wrought disaster to the farmers of the country. This tariff gives a protection of approximately six billion dollars per annum to capital and labor engaged in manufacturing, but gives no protection to the farms. When released from war influences this tariff will reduce the selling price of farm products approximately a billion dollars per annum. It brings capital and labor employed on the farm in direct competition with free lands in primitive countries and compels the farmer to compete with wild men who live in trees and caves and raise their children in nakedness and ignorance. The only purpose and the only result of taking agricultural products off the protected and placing them on the free list was to reduce the price. The act was therefore deliberately unfriendly to the farmers of the nation. The next session of congress should revise the tariff and get back to the soil with protection. Giving to the plow the same friendly consideration that is now given to the factory."

FARMERS' HEAD URGES ADAMSON ACT REPEAL

HENRY N. POPE of Texas.

New president of the Association of State Farmers' Union Presidents who has announced in favor of the repeal of the Adamson law, claiming that it is a discrimination against the farmer. He contends that by decreasing the hours of the trainmen congress has shifted an increase of hours to the backs of the men who follow the plow.
